PRESIDENT'S WELCOME

It is a privilege and a great pleasure to welcome you to my home town of Bournemouth for our 2019 Summer Scientific Meeting. In the 40 years since I departed the town, both of us have experienced significant developments one of which has been the Bournemouth International Centre with its outstanding location and facilities.

Our programme covers the broad spectrum of plastic surgical practice including fundamentals of plastic surgery. It includes two important eponymous lectures, the Gillies Lecture to be given by Professor Milomir Ninkovic on the evolution of reconstructive practice, and the University of Newcastle John Potter lecture by Mr Nigel Mercer, on the practice of Cleft Lip and Palate Surgery.

In Plastic Surgery there are many areas of overlap with other specialties and I am enthusiastic to encourage constructive collaboration across the specialty divide. I am delighted to welcome the President of BOPSS and colleagues from Dermatology and the Association of Breast Surgery. This provides a great opportunity to become aware of latest developments as well as gaining a different perspective of patient management

More than perhaps any other specialty Plastic Surgery is holistic in nature. Successful outcomes are, in addition to the surgeon's attitude, clinical judgement and technical skills, dependent upon the other members of the team. I am hoping to build upon the very successful Nurses day at the winter meeting and am including expert contributions on ethics, rehabilitation and perhaps above all the perspective and experience of our patients.

There will be updates on developments in UK practice including GIRFT the Flap Registry and the role of the CQC and in addition to our Journal update there will be a panel discussion and seeking of a specialty consensus regarding best practices and pitfalls in preoperative photography

The meeting will concluded by a PLASTA innovation when on Saturday 29 June when there will be a PRASIS-supported training day on leadership. This will be open to all and is anticipated to be of benefit to both trainees and consultants (especially new ones!). Socially there is much to do independently in Bournemouth but this meeting has afforded us the opportunity to enjoy a barbecue by the beach in style. I hope that you will all have a successful time with much professional engagement, education and above all enjoyment.

Mr Mark Henley
President, 2019-2020
