PRESIDENTS' WELCOME

Welcome from BAPRAS President, Mr David Ward

Dear Delegates,

It is a great pleasure to welcome you to our Summer Meeting in Helsinki. BAPRAS is delighted to be joining with FAPRAS in a joint meeting. We have a programme that ranges widely across plastic and hand surgery. The international faculty includes speakers from Finland, UK, Ireland, Sweden, Holland, Italy, Spain, USA, Australia, Mexico, Korea, India, Pakistan, South Africa and Russia.

We will be at the Scandic Marina Congress Center, on the sea front and very central, with the conference hotel, the Scandic Grand Marina, just across the road. The city centre is within easy walking distance or a short tram ride.

On the morning of the first day we will hear about historical and military aspects of plastic surgery. In the afternoon we have the first of two sessions on hand surgery, a separate specialty in Finland, with international speakers talking about transplantation, and a session on lymphoedema running in parallel with lower limb surgery.

On the second day, following talks on thermal injuries, Chris Khoo, past President of BAPRAS, will give the Newcastle University John Potter Lecture. Aesthetic surgery and the second hand surgery sessions then follow. In the evening there is the Gala Dinner at the art deco restaurant Pörssi.

On the third day we have speakers on craniofacial and trunk surgery, followed by the Sushruta-Guha lecture on facial transplantation by Bohdan Pomahac, in association with the Royal College of Surgeons of

Edinburgh. The rest of the day is on breast surgery, including an update on ALCL and a talk by the President of the American Society of Plastic Surgeons.

Interspersed in the meeting there will be several free paper sessions. A large number of high quality presentations were submitted this year, and these sessions will showcase the very high quality of those papers, adding to the scientific value of the meeting.

Finland celebrates its centenary this year. Helsinki is the 'Daughter of the Baltic', and will be at its beautiful best in June. It is intrinsically linked with the sea, making many of the world's icebreakers, and its fishermen still bringing their catches into the main harbour. It has much to offer, with fine architecture, many museums, and offshore islands to explore. I hope very much that you will enjoy the meeting, not only the scientific parts, but also the networking and socialising, and a chance to visit Finland.

PRESIDENTS' WELCOME

Welcome from FAPRAS President Dr Ilkka Kaartinen

Dear Friends and Colleagues,

I am honored to welcome you to Helsinki this summer for a joint summer meeting of BAPRAS and FAPRAS. The year 2017 marks 100 years of independence for Finland, and conveniently, also the 60th anniversary of the Finnish Association of Plastic, Reconstructive and Aesthetic Surgery, to bring a festive atmosphere to this year's meeting.

For the scientific program, we are delighted to have a distinguished faculty of speakers with topics covering all aspects of our specialty. Contemporary subjects, such as face and hand transplantation and BIA-ALCL, are covered by expert lecturers in respective sessions. In addition to the renowned guest speakers, many high quality abstracts from around the globe were selected for free paper presentations.

The social program includes welcome drinks at the City Hall on Thursday, and the Gala Dinner in the beautiful facilities of Restaurant Pörssi, with live music, an essential part of Finnish festivities.

Helsinki is definitely a summer time city, and the location of the meeting in the Port of Helsinki will be great for enjoying the maritime feel of our capital. For a meeting to remember, participants can enjoy a real Finnish sauna and a dip to the cool Baltic sea, or take the short ferry ride to the beautiful Estonian capital Tallinn.

We hope that you will enjoy the meeting and everything Finland has to offer.

FRIDAY 16 JUNE

09:45–10:30: Symposium sponsored by Abbvie

Hidradenitis Suppurativa: Current concepts from a dermatologist's perspective

Speaker: Professor Kristian Reich

This HS symposium provides an overview on recent knowledge on HS and its treatment guidelines. Dermatologists currently have medical tools to manage HS. However, in severe disease with massive scarring a strong collaboration with surgeons is crucial to achieve holistic care in this patient group. Most importantly, it provides a dermatologist's perspective on management of HS and on the collaboration between specialties.

Professor Kristian Reich: Biography

Your certificate of attendance, including CPD points, will be emailed to you after the conference.

Abstracts

Abstracts of all free papers and posters are available to view online. Visit <http://bapras.meeting.org.uk/programme>.

Conference app

Download the conference app via your device's app store – search for BAPRAS FAPRAS 2017. The app is supported on iOS 7+ and Android 4.1+. The app provides the full programme, abstracts and speaker biographies in an easily accessible format that, once downloaded, can be used without a connection to the internet. You can also use the app to take notes which can be downloaded to another location for use outside of the app.

Poster viewing

Poster viewing stations are available in the foyer.

Using the poster stations

From the index page, click a number to start viewing the relevant poster. Details of poster numbers can be found in the conference guide.

Once you have selected a presentation, to move forwards and backwards through the slides, hover the mouse at the bottom left hand corner of the screen. Navigation buttons will appear to allow you to move forwards or backwards through the presentation.

To return to the index page, click the red 'i' button, found in the top right hand corner of every presentation slide.

All posters can be viewed at any of the viewing stations throughout the conference

Presenters have also been allocated a specific presentation slot on one of the stations. See the poster section for more information on this.
