

Title: BAPRAS Covid-19 Webinar - Impact of Covid-19 Upon Plastic Surgery Research

Confirmed Faculty: Prof. Peter Hutchinson (Director of Clinical Research, RCS), Dr. Kristina Harrison - MRC Programme Manager for Studentships, Brendan Eley (Chief Executive, Scarfree Foundation), Prof. Manuel Salmeron-Sanchez (Chair of Biomedical Engineering, The University of Glasgow), Prof. Daniel Kalbermatten (University Hospital Basel & Chair of EURAPS Education Committee), Adam Reid (University of Manchester & Deputy Editor JPRAS), Jason Wong (King James IV Professor RCS(Ed), University of Manchester & Deputy Editor JPRAS), Matt Gardiner (Royal College of Surgeons Surgical Specialty Lead for Hand and Plastic Surgery & RSTN lead)), Prof. Sean Carroll (National Training Director; Associate Clinical Director UCD School of Medicine, Ireland), Prof. Iain Whitaker (Professor of Plastic Surgery, Swansea University), David Leonard (Trainee Representative, BAPRAS Research Committee), Dean Boyce (Chair of the BAPRAS Education Committee), Andy Hart (JPRAS Editor).

Unconfirmed:

Prof. Hans Guenther-Machens - Chair of Plastic Surgery, technische Universität, Munich
Mark Henley (BAPRAS President)

Description: In this series of BAPRAS webinars, Council officers and invited colleagues present their views upon salient aspects most relevant to our members welfare and effective clinical practice, and for training. Webinars have been formatted to allow for real time question and answer, and allow feedback to direct Council activity .

One of the more significant longer term impacts of COVID-19 upon our specialty relates to its impact on research output, funding, and academic career paths. In this webinar we bring together individuals from around the U.K. at differing points of the academic career path, with senior figures from the College and funding bodies. We aim to provide greater clarity on University activity and adaptations to Covid, and to give greater clarity of those pursuing academic careers as they face key decision points in their careers.

Future webinars will continue to address issues around developing best practice for the management of specific subspecialty areas of work.

Time: Thursday 9th July, 19:00 - 20:30 (U.K. time)

To Join: Gemma, please would you send panellists a zoom link, and an automatic calendar link for Outlook, Google, Yahoo Calendars, and put them onto a WhatsApp group

AGENDA (speaker confirmed / not yet confirmed):

1. 2 min Andy Hart: introduction
2. 10 min Kristina Harrison: The MRC & future surgical research funding and academic career pathways
3. 5-7 min Brendan Eley: The Impact of Covid-19 upon the Charitable sector and future plastic surgical research ambitions
4. 7 min Peter Hutchinson: The RCS view on academic surgical research in the medium & long term
5. 5min Manuel Salmeron-Sanchez: The impact of COVID-19 on a large translational bioengineering research group & the need for academic surgeons
6. 5 min Matt Gardiner: RSTN - a low investment model for high impact research
7. 5 min Daniel Kalbermatten - Plastic Surgery research Landscape in Switzerland & Impact on research & education across Europe
8. 5 min David Leonard: The view of a postdoctoral academic trainee
9. 3-5 min Adam Reid: Impact on running a Senior Lecturer position and laboratory
10. 3-5 min Andy Hart: Publishing landscape and need for academic training
11. 3 min Sean Carroll: Plastic Surgical Research in Ireland
12. 3 min Iain Whitaker: Plastic Surgical Research in Wales
13. 5 min Jason Wong: Covid proof research and the need for continued investment in our specialty
14. 3min Dean Boyce & Andy Hart: commentary
15. Panel: Q&A
