Aberdeen Cadaveric Flap Course

20th to 22nd of May 2024

www.cadavericsurgicalcourses.com

This Three-day course, using fresh frozen cadavers, focuses on the surgical anatomy of flaps commonly used in reconstructive surgery.

Each Delegate will have adequate opportunity to dissect the flaps, under close supervision of a Plastic Surgeon.

The dissections will be complemented by lectures and interactive discussion.

The Aberdeen Cadaveric Flap Course is fully accredited by the Royal College of Surgeons of Edinburgh.

Completion of the course awards the delegate with 18 CPD points.

This course is aimed at ST3-ST4 in Plastic Surgery, or equivalent.

All members of faculty are prominent and experienced Plastic surgeons.
